RE: Purchased Water Adjustment

2014-0037

The Bracken County Water District has received notification from Augusta Regional Water Treatment Plant that the wholesale water rate will increase effective February 26, 2014. Please find enclosed one original and ten copies of our purchased water adjustment, the resolution from the board, and all supporting documents.

The district has chosen not to raise the rate at the bulk loading station due to the fact that it is a coin-fed machine that only takes quarters. The bulk station does not generate much revenue any more, therefore, it would not be cost effective to make any changes to the coin feed operation for this pass-through.

The district has placed notice of the application at the office and also on our website. We plan to notice the customers with a newspaper ad after PSC approval.

If you have any questions I can be reached at 800-935-3513 ext 212.

Sincerely,

Diana Moran
